

TOLCO Fig. 74 upper attachment

Structural attachment for branch line restraint and sway brace

The TOLCO Fig. 74 can be used with multiple types of fasteners to attach to concrete, steel or wood structures.

Features and benefits

- Barrel rolls freely to allow installation angles from 0° to 90° from the mounting surface
- Multiple holes to allow various fasteners to attach to the structure
- Ideal for use with TOLCO Fig. 77

Specifications

- Steel material
- Fits both 3/8" and 1/2" all threaded rod
- Compatible with other B-Line series and TOLCO bracing components

Certifications

- Meets NFPA 13 for sway bracing of fire sprinkler systems.
- UL Listed as a restraint for lateral bracing for branch line restraint assembly
- FM Approved as a structural attachment for sway brace assembly

Fig. 74
